| Came out great I was worried that the large odd size of my art would make it expensive to frame The price is very reasonable and my framed art looks great                                                                                                                                                                                                                                                                                                                                                                             | Internal Links | Dofollow |

| Even better than expected I assumed for the price this frame would be good enough for my needs and it was far better than what I expected the packaging is fantastic too as soon as I opened the box I knew there was no danger of broken glass because the way they pack their frames is very secure I 39 m really happy I took a chance ordering on line My only suggestion to the web designer would be to get clearer photos of the frame detail in better lighting                                                                | Internal Links | Dofollow |

| Diamond Art Frame I was looking for a frame that would hold a diamond art painting It was supposed to be 16 x 20 but the manufacturer made it slightly smaller The dimensions were small enough that I had to look for something special made I entered the dimensions and crossed my fingers that it would work As soon as I got it I opened it and it fit PERFECT So happy and will be back for more frames | Internal Links | Dofollow |

| So easy! I loved being able to get the exterior dimensions in correlation with the interior dimensions without any question as to whether the mat would be correctly sized Especially when the photograph is an irregular size like a vintage poster that was printed 60 years ago Hard to find frames for that and mats will need to be custom fit to get the image framed and well preserved                | Internal Links | Dofollow |

While there's no exact limit to the number of links you should include on a page, best practice is to avoid exceeding 200 links. Links pass value from one page to another, but the amount of value that can be passed is split between all of the links on a page. This means that adding unnecessary links will dilute the potential value attributed to your other links. Using the Nofollow attribute prevents value from being passed to the linking page, but it's worth noting that these links are still taken into account when calculating the value that is passed through each link, so Nofollow links can also dilute pagerank.
